

WINE LIST 2023 - 2024

Our name Monastik tributes to the ancient knowledge of monasteries. How these entities worked through the centuries, completely self-sufficient, lived in balance and respect with the world around them. They were not only representing their time's intellectual and spiritual elite, but we should be thanking them for some significant culinary discoveries, such as cheese, beer, and WINE.

Wine has a spiritual connotation on many levels. In catholicism, wine is the representation of the sacrifice of Jesus Christ. But besides the biblical references, the transformation of a simple grape into something so diverse, complex, and ever-changing as a bottle of wine is simply phenomenal. We aimed to create a wine list that complements our local and sustainable kitchen concept well.

In our "International Sommelier Selection," we offer some of the most iconic and well-known items from all around the world. Our "Restaurant Selection" proudly presents some unique wines from Malta and Continental Europe.

By selecting organic, sustainable, biodynamic, and natural wines we wish to show a healthy balance between an environment-conscious attitude and the joy of pairing fantastic wines with delicate, seasonal food.

We take pride in our wide and comprehensive selection of wines by the glass. To provide the best-tasting experience and preserve the freshness of the wine we use Coravin Wine Preservation System which is designed to pour wine without removing the cork, so wine always tastes as if it has just been opened.

For the sake of a whole dining experience, we selected a broad variety of sweet and fortified wines -all served by the glass as well- to round off the meal.

Enjoy your wine journey.

KEY

- (O) Organic
- (ECO) Ecocert - Certified Organic Agriculture
- (BV) Biodynamic Viticulture
- (EMS) High Environmental Value Farm
- (TV) Terra Vitis
- (SV) Sustainable Viticulture
